# Paper Converting Conveyor

## Toilet Roll Conveyor

Toilet roll after being cut by log saw is conveyed at high speed by FlexMove conveyors to wrapping machine. FlexMove conveyor is also used in kitchen towel, tissue paper and sanitary napkin production too.

**FlexMove**<sup>®</sup>

## Tissue paper conveyor

FlexMove conveyors are used in tissue paper production to convey boxed tissue paper.

## Paper Converting Conveyor

### Multi-lanes high speed toilet roll conveyor

FlexMove multi-lanes high speed conveyors are used to transfer toilet rolls or kitchen towels cut by multi-lane log saw at high speed to packing machine.

**FlexMove**®

### Paper converting conveyors

FlexMove conveyors are widely used in paper converting industry due to its flexibility of conveying products in multi-lanes, multi-levels and multi-flexing features.
